

## Classification

### Group A

### Group B

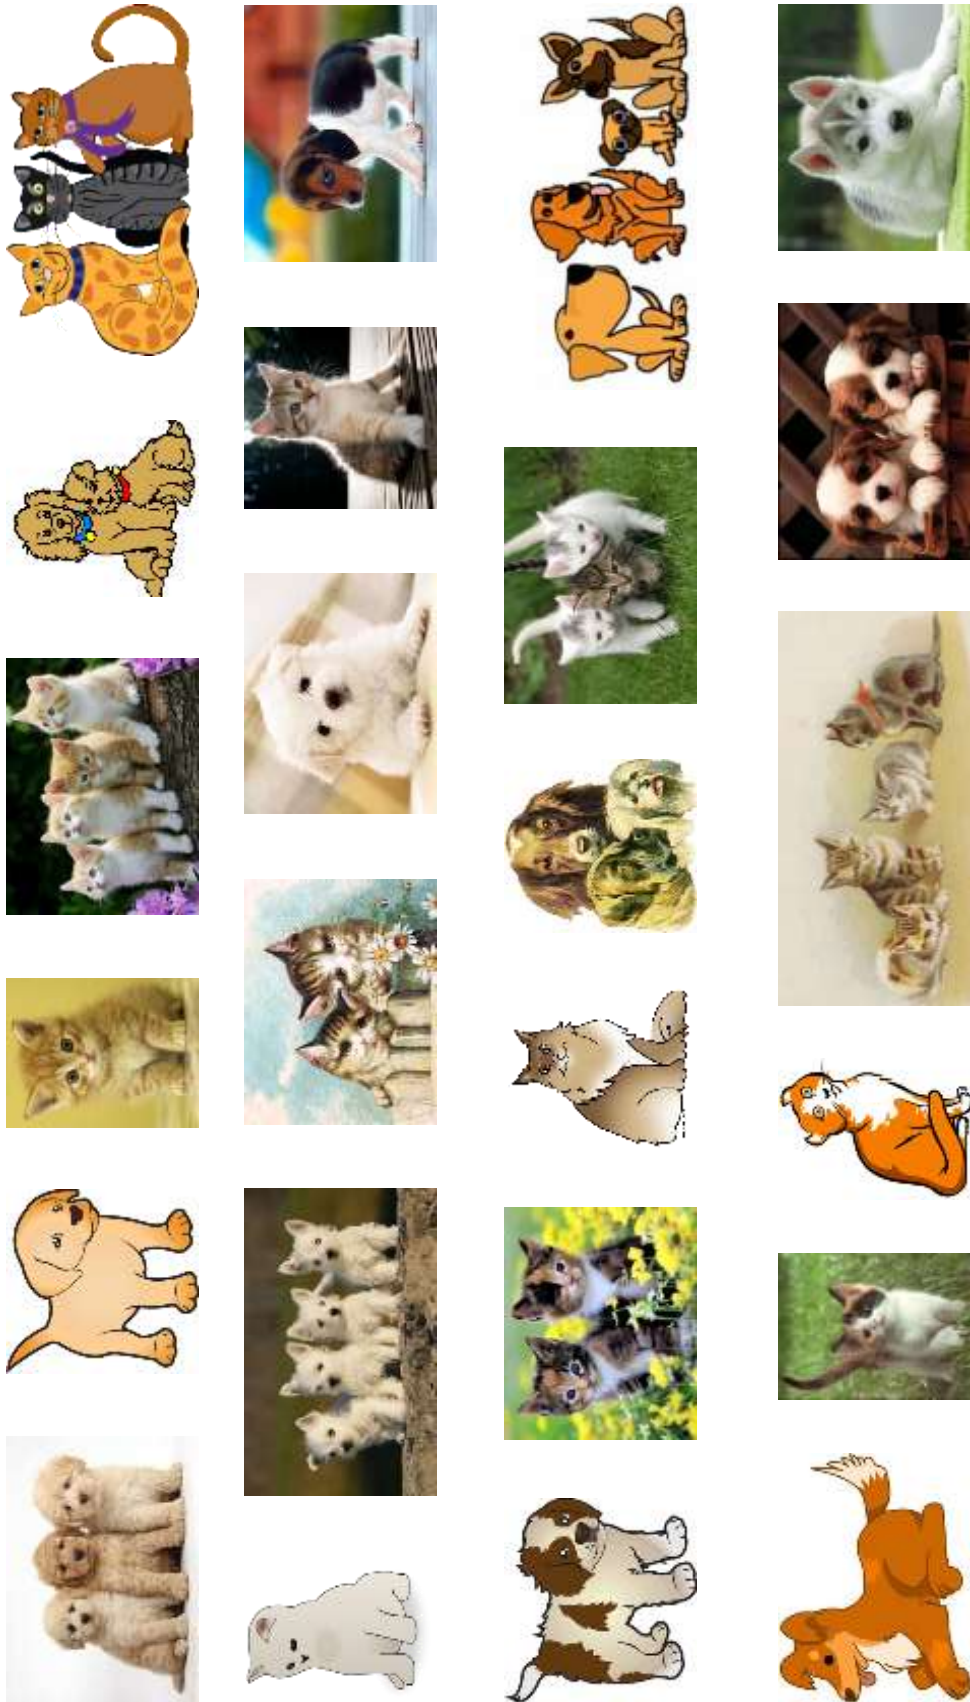

### Instructions

Classify the pictures on the next page into one of the above two pre-defined categories

Indicate the group membership of each picture by drawing a circle around any picture that you put into Group A, and nothing around any pictures that you put into Group B.

# Activity: Classification and Clustering

## Example: Classification

## Activity: Classification and Clustering

### Clustering

## Group 1

## Group 2

### Instructions

Cluster the pictures on the next page into two categories. You decide how to create the categories.

Indicate the group membership of each picture by drawing a circle around any picture that you put into Group 1, and nothing around any pictures that you put into Group 2.

Activity: Classification and Clustering

Example: Clustering
